REAL ESTATE.

The assessed value of Real Estate was, for 1893	$1,562,582,393
For 1894 it is	1,613,057,735
The increase is	$50,475,342

As shown by the preceding statement, the increase in the assessed value of real estate is chiefly in the Twelfth, Nineteenth and Twenty-second Wards, and Section 3, which is that part of the city lying between Fourteenth and Fortieth streets, and is principally attributable to the erection and completion of new buildings and appreciation in value of real estate.

The following table shows the estimated cost of proposed new buildings, by years, from 1880, and the increases in the assessed valuation of real estate in the following years:

Year.	Estimated Cost of New Buildings.	Year.	Increase in Assessed Value of Real Estate.
1880	$12,205,290	1881	$34,164,009
1881	43,391,300	1882	58,468,617
1882	44,793,186	1883	43,926,853
1883	44,304,638	1884	40,630,928
1884	41,480,208	1885	48,681,540
1885	45,374,013	1886	35,497,928
1886	58,739,733	1887	50,550,784
1887	67,069,570	1883	48,327,030
1888	47,289,145	1889	28,759,412
1889	69,504,872	1890	66,711,716
1890	75,099,812	1891	65,957,813
1891	63,613 762	1892	40,656,783
1892	59,273,679	1893	57,677,790
1893	54,859,318	1894	50,475,342

The estimated cost of proposed new buildings of the previous year should be compared with the assessed valuations of the subsequent year, for the reason that the assessed valuations of real estate by the Deputy Tax Commissioners are made and completed on the second Monday of January of that year, so that, in reality, the cost of improvements made upon real estate in any given year affects the assessed valuations of the succeeding year. Allowing for a reduction in the estimated cost of improvements to real estate on account of some of the proposed improvements not being made, it can be safely stated that about one-half of the increase in assessed valuations of real estate is caused by improvements and about one-half by the appreciation in the value of property.

SIR—As required by the provisions of section 49 of the New York City Consolidation Act of 1882, we make the following

REPORT

of the "operations and action" of the Department of Taxes and Assessments for the three months ending December 31, 1893.

During the period for which this report is made the work of the Department has been mainly confined to the assessing of real and personal property for the year 1894, which was begun by the Deputy Tax Commissioners, under our direction, on the first Monday of September last, as required by section 814 of the New York City Consolidation Act of 1882.

This work is nearly completed, and the preparation of the books of annual record of assessed valuations of real and personal estate for the year 1894 is in a fair state of progress.

Since the assessment rolls for the year 1893 have been delivered to the Receiver of Taxes, we have remitted taxes for said year in four instances, amounting in the aggregate to the sum of $229.$\frac{32}{100}$.

The following is a summary of the report of the Board of Assessors as transmitted to us, showing the work done by them during the three months ending October 31, 1893.
